

GolfProConnect

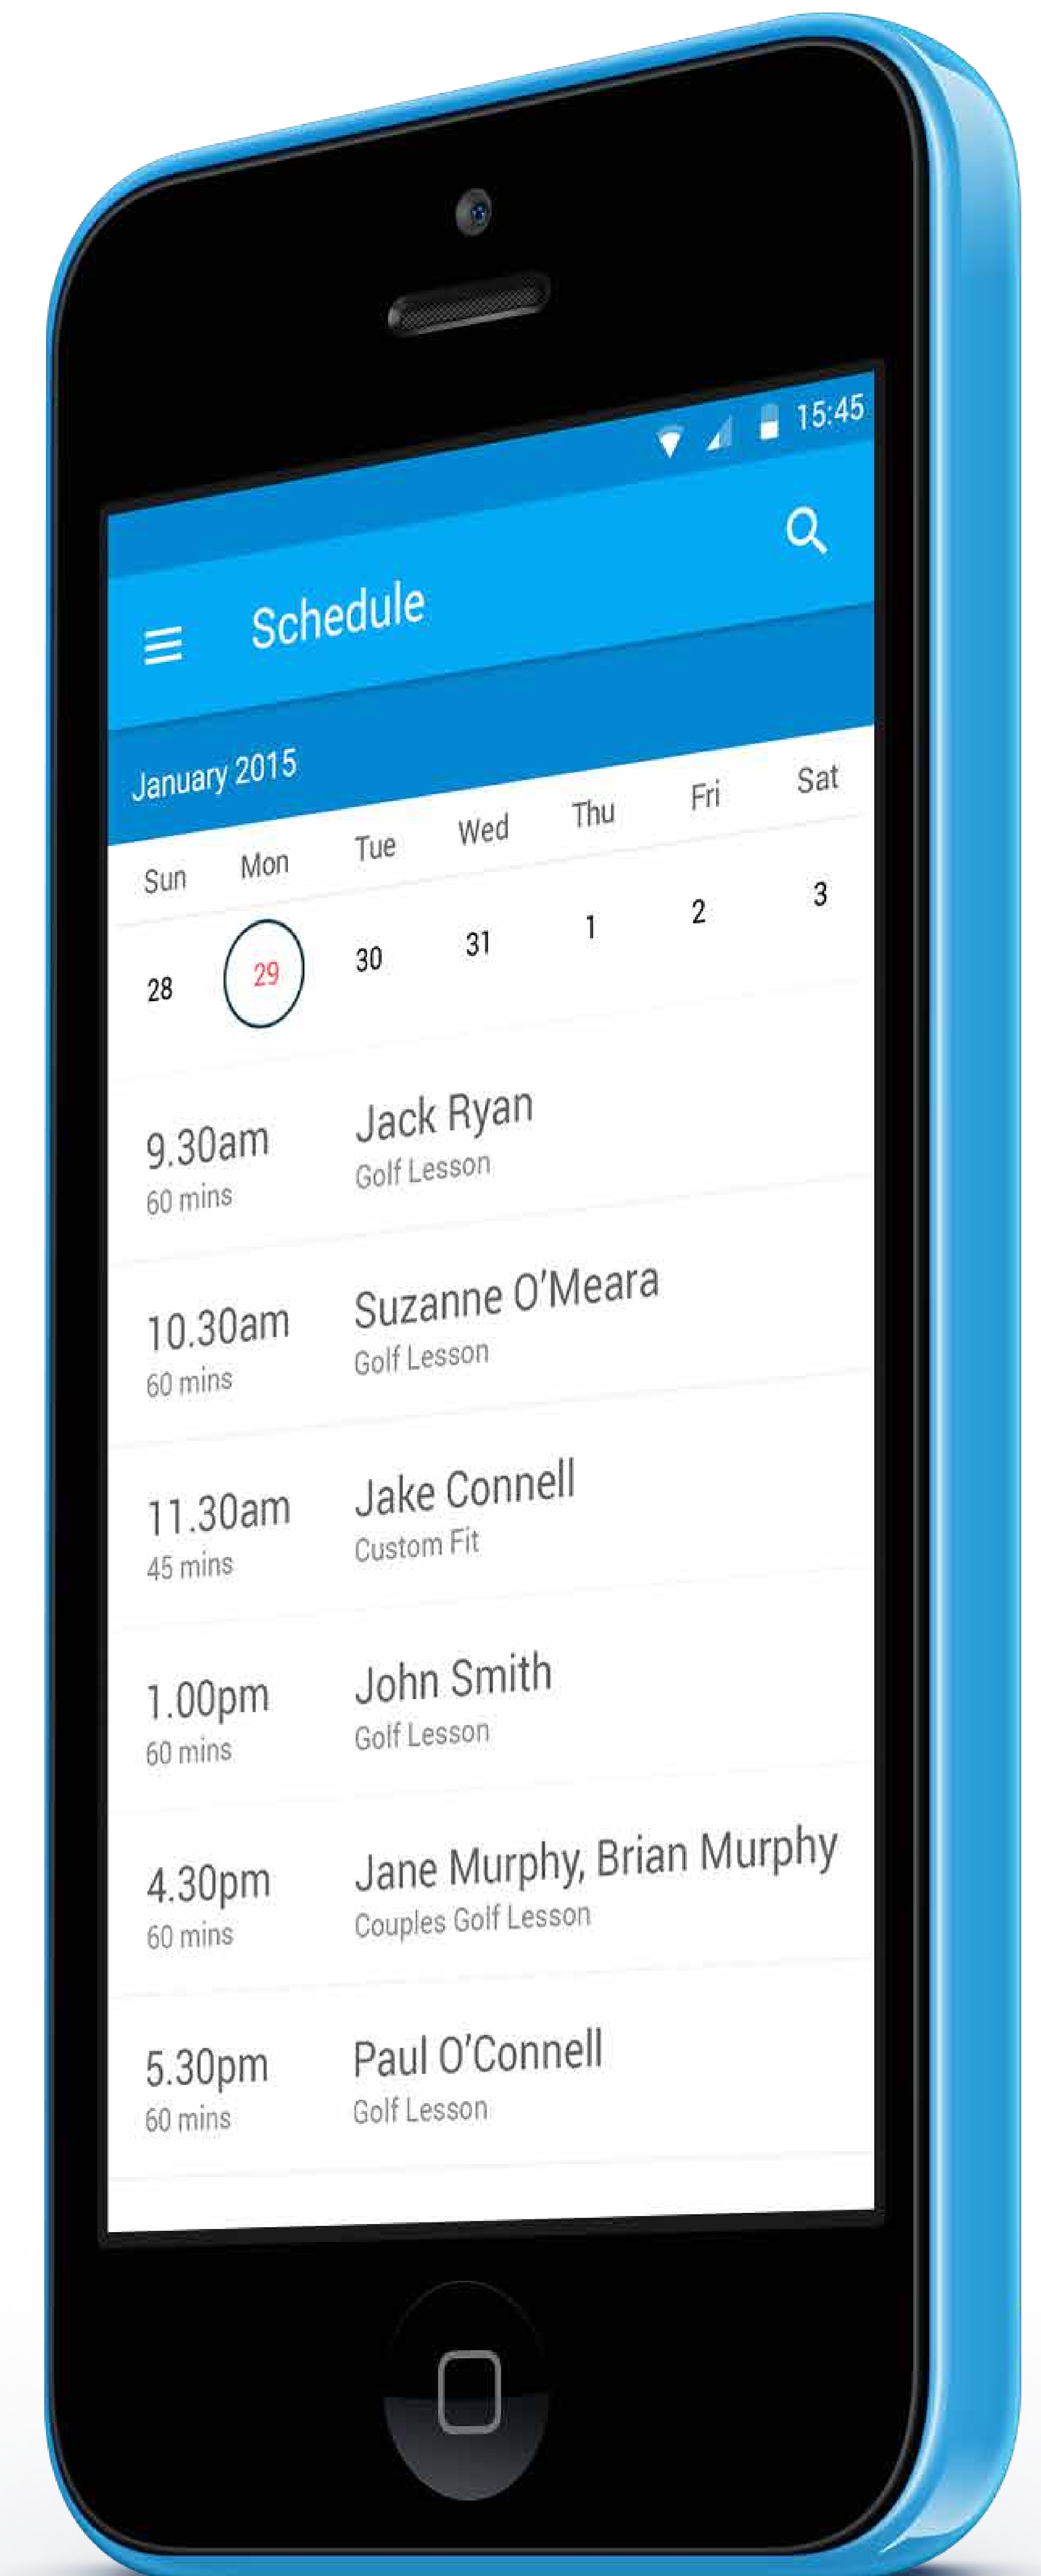

INVESTMENT BROCHURE

BUILD EXACTLY WHAT PEOPLE WANT AND YOU CAN ONLY SUCCEED.

GolfProConnect (GPC) is the future of golf. GPC is ideally positioned to modernize how professional coaches conduct business, and ordinary golfers learn the game.

Developed by two highly regarded modern thinking PGA Professionals, specifically for PGA Professionals and their Amateur clients. Years of industry experience and market research has led to the inception of the world's first turn key, end game, business solution for the golf coaching industry.

GPC's unique and market specific technologies will help the company become the **“Globally recognized specialized sports app when looking to learn a sport as a student or conduct business as a sports professional.”**

MISSION STATEMENT

At GolfProConnect, we go the extra mile to build shareholder value. We achieve this by relentlessly researching our target audience in a constant endeavor to stay innovative and cutting edge for our clients.

Our unique expertise, contacts and affiliations within the market place coupled with our extensive work ethic is the backbone of GPC and sets us apart from our competitors. It is this attitude, market knowledge and our unique industry affiliations that is the driving force behind our current and future success.

COMPETITIVE EDGE

GPC has developed technologies that have been specifically requested by PGA Professionals and Amateur Golfers, for this reason we feel GPC is unique in that we know exactly what our clients want and need both now and in the future.

GPC's competitive edge comes not only from the products very specific functions but also from our partnership with golfs leading organization the PGA (Professional Golfers Association).

This governing body of golf understands the need to change how Professional and Client interact and do business in the modern technological environment.

The PGA/GPC partnership will provide the entire PGA membership with a GPC account automatically.

This first of its kind PGA/GPC agreement gives the company unparalleled brand recognition within the golf industry and will be repeated globally with the US and Asian PGA's when the GPC platform is ready for full global release.

THE FUTURE IS BUSINESS FLEXIBILITY AND MOBILITY

A fully functional turn-key personalized business suite and payment gateway accessible immediately within in a few clicks and fully operational on any device, anywhere, anytime.

GPC's software provides business professionals without an online presence a highly functional personalized online business platform complete with the innovative tools to stand out, whilst keeping the essential scheduling and payment gateway features at its core. Building innovative features is nice but giving clients the essential business tools they need is why GPC is ground breaking.

TARGET MARKET

GPC's target customers are the 62,000 PGA Professionals worldwide and the 60 million regular playing Amateur Golfers.

The company will acquire PGA Professionals via its partnership with the PGA.

This synergy with the PGA is beyond exciting for the company as it gives GPC unrestricted access to its target audience.

The three main PGA organisations, UK PGA, PGAE and the US PGA account for 84% of the golf professionals worldwide.

PROJECTED REVENUE

Due to extremely high profit margins we estimate high returns in a short period of time.

The following indicate the moderate-level financial forecasts for the business and are based on The Professionals premium sales ONLY.

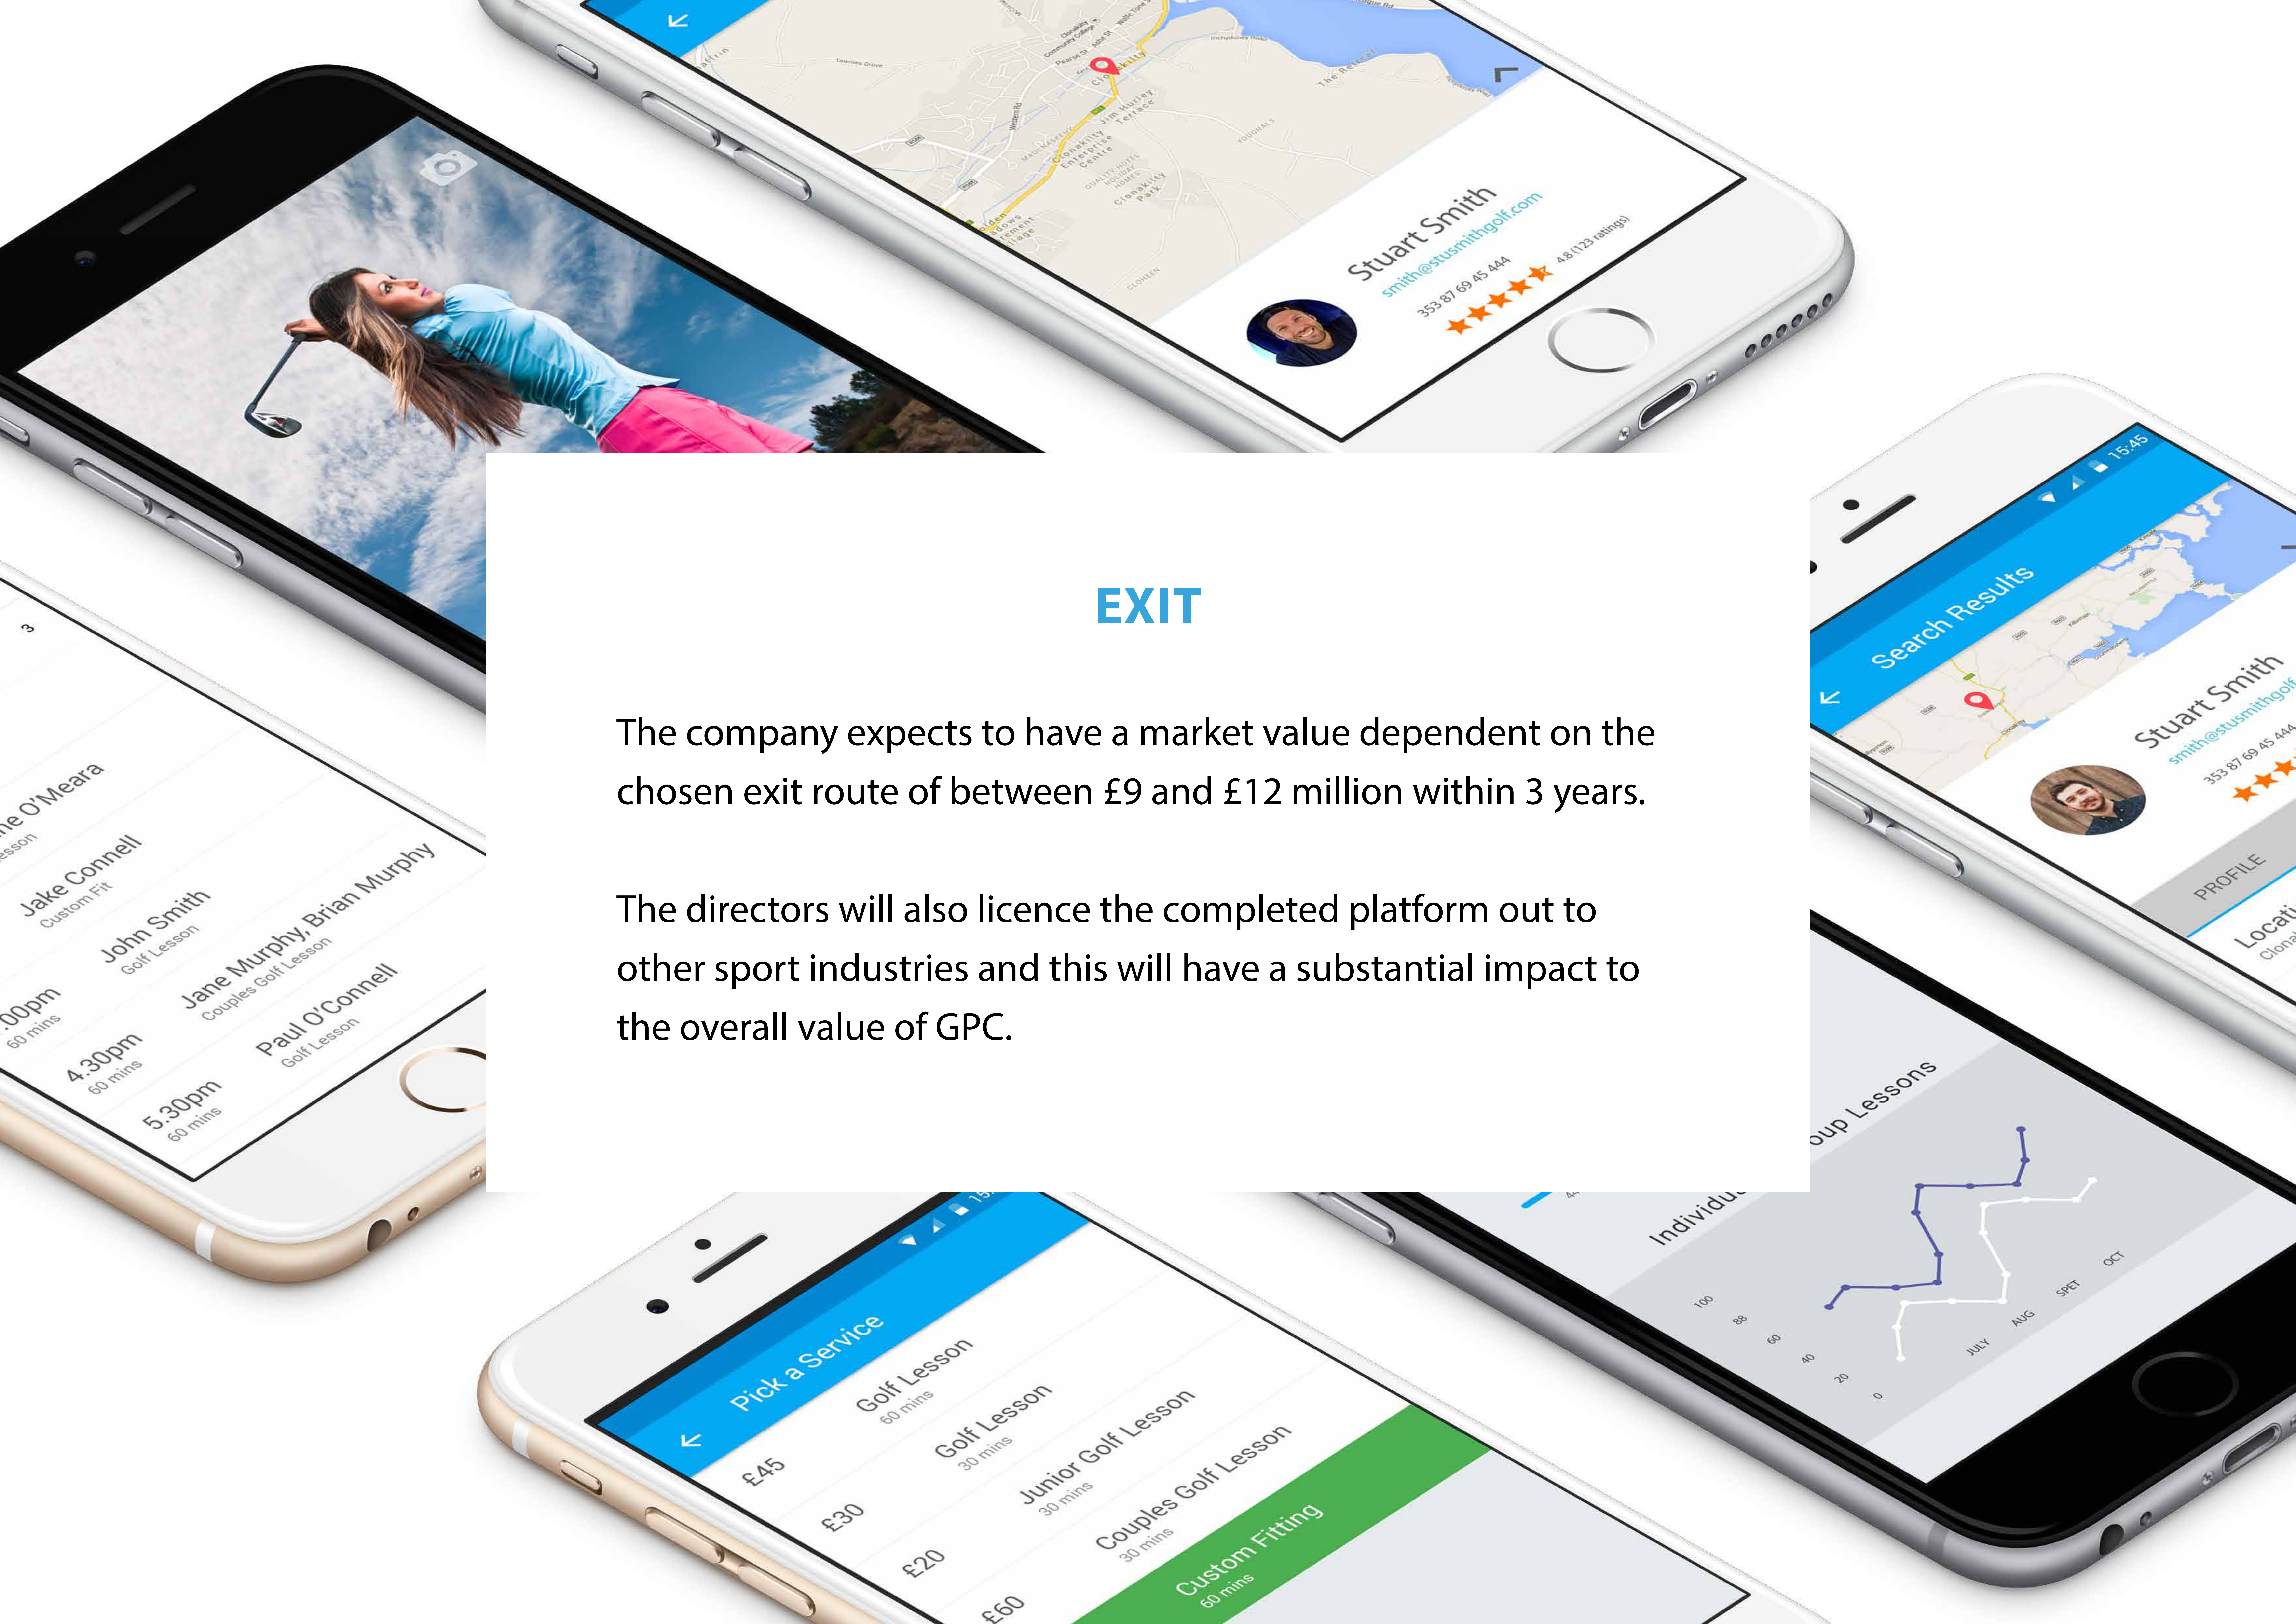

Estimated Turnover:

Year 1 £400,000 Year 2 £1,375,000 Year 3 £2,440,000

Estimated Profit:

Year 1 £240,000 Year 2 £1,100,000 Year 3 £2,070,000

EXIT

The company expects to have a market value dependent on the chosen exit route of between £9 and £12 million within 3 years.

The directors will also licence the completed platform out to other sport industries and this will have a substantial impact to the overall value of GPC.
